need to be **Attacked**

Azidak-500

Azithromycin 500mg **Tablets**

Azithromycin

- Superior to Amoxicillin in treatment of lower respiratory tract Infections¹
- Shows 80% clinical cure in RTI²
- Effective against Haemophilus influenzae, Pneumococci, Staphylococci, Legionella sp³
- Exhibits 98% Bacterial eradication rate⁴
- Faster and More effective than Amoxicillin/Clavulanic Acid or Cefaclor In acute infections of the Ear, Nose and throat⁵

RTI | UTI | SSTI

ENT Infections

A Superior & Effective Antibiotic

In Various Conditions
of Hyperpigmentation

BRITE UP

Hydroquinone 20mg, Tretinoin.25 mg,
Fluocinolone Acetonide 1 mg **Cream**

Hydroquinone

- A Melanin blocker to lighten/brighten and even the skin

Tertinoin

- A Vitamin A derivate acts as exfoliant and helps to clear and protect the Skin

Fluocinolone Acetonide

- An Anti-inflammatory topical Corticosteroid to help heal the skin

{ It is found to be safer than mometasone for longer term use along with Hydroquinone and Tretinoin }
(Ref : Gadse KV, Zawar V. Mometasone menance in melasma, Indian J Dermatol 2012;57 : 32-6)

Eradicate the Bacterial
Infections Completely

Also Available
CEFOSYN 200
Cefpodoxime 200mg Dispersible Tablets

CEFOSYN-CV

Cefpodoxime 200mg +
Potassium Clavulanate 125mg **Tablets**

- » Active against most Gram positive and Gram Negative Bacteria
- » Cefpodoxime proxetil may be effective in reducing symptoms of recurrent pharyngotonsillitis and preventing recurrences without causing side effects or developing bacterial resistance.
- » Active against clinically important plasmid-mediated β -lactamases.

Cefpodoxime & Clavulanic acid combination has more potent in vitro activity beta-Lactamase producing strains of gram-positive & Gram-Negative Bacteria

Acute otitis media | Post-surgical Infections

Acute Maxillary Sinusitis | Uncomplicated UTI

Pharyngotonsillitis | Paediatric Typhoid fever

Lower respiratory tract Infection

safer & trustworthy choice
against infections

Antibiotic of your Choice...
for Dependable Results

CEFRIM-CV500

Cefuroxime Axetil 500mg +
Potassium Clavulanate 125mg **Tablets**

Cefuroxime Axetil

- Broad-Spectrum Cephalosporin Antibiotic with increased stability to β -lactamase.
- Highly active against beta lactamase producing strains which are resistant to ampicillin and penicillin
- Highly active against skin & soft tissue Infections Caused by S. Aureus, S. Pyogeltes, E. Coli, Klebsiella, Enterobacter
- In meningitis Cefuroxime has superior penetration into the CSF Compared to other Cephalosporins

Clavulanic Acid

- Extends the spectrum of Cefuroxime against beta lactamase Producing Organisms

Upper & Lower RTI | Urinary Tract Infections

Bacterial Meningitis | Bone & Joint Infections

Skin & Soft Tissue Infections | Post-Surgical Infections

Overcome Challenges **of Tough Pathogens...**

Two Performers

D3 Essential Vitamin

Also Available
D3EV 400
Cholecalciferol 400 IU per ml Drops

D3 EV 60K

Cholecalciferol 60000 IU per **Capsule**

Vitamin D are a group of fat-Soluble Secosteroids responsible for Enhancing intestinal absorption of Calcium, iron, Magnesium, Phosphate & Zinc. Hence, Essential for stronger **Bone and better Bone Mineral Density(BMD)**.

Vitamin D Deficiency is **NOT JUST BAD FOR BONES...**

Cancer		Skeletal Disorder
Diabetes		Metabolic Disorder
Fibromyalgia		Auto Immune Disorder
Cognitive Disorder		Cardiovascular Diseases

Correction in serum 25(OH)D level to optimal level on use of Vitamin D3-60K for 8 weeks (Optimal level is 30-40 mg/ml).

Softule offers Compliance with Accurate dosing (unlike Sachets)

Hypocalcemia | Osteoporosis | Fractures
Refractory Ricket | Osteomalacia
Hypoparathyroidism | Diabetes with Vit D Deficiency
Cardiovascular Diseases

Key Component for **Holistic Health**

When pain is extreme...

DIFFFA

Diclofenac Sodium 75mg/ml Injection(Aqueous base)

Diclofenac Sodium

- Reduces inflammation & as an analgesic reduces pain in certain condition.
- Inhibits prostaglandin synthesis by inhibiting cyclooxygenase(COX)
- More potent than indomethacin and naproxen.

» **Rheumatoid arthritis**

» **Osteoarthritis**

» **Ankylosing spondylitis**

» **Low back pain**

» **Acute musculo-skeletal disorder**

**The Nourishment
for Present & Future...**

Folimum

DHA Softgelatin Capsules

DHA 200 mg + Methylcobalamine 1500 mcg + Folic Acid 5 mg +
Pyridoxine 1.5 mg **Softgel Caps**

DHA

- Support the cerebral development throughout the life cycle
- An essential nutrient for pregnant and nursing mothers and also for infants

Methylcobalamine

- Improves Axonal Regeneration

Folic Acid

- Essential for the red blood cells production
- Necessary for RNA and DNA synthesis and aids in amino metabolism
- Help prevent birth defects of the spinal cord & brain called neural tube Defects!

Pyridoxine

- Helps to form red Blood Cells, Antibodies and neurotransmitters.

**Neurological Disorder | Pregnancy & Lactation
General Weakness | Pre & Postnatal Weakness**

A Right Step Towards Well Being...

PEP up the **GUT** with....

GUTPEP

Alpha Amylase (Bacterial 1:800) 100 mg +
Papain 50 mg / 5ml **Liquid**

- ▶ **Alpha Amylase** is a Digestive Enzyme classified as a Saccharidase. **Break down starches in food to dextrins, glucose & maltose so** that they can be used by the body.
- ▶ **An Bacterial alpha amylase works better than fungal enzymes** as for optimum performance they have higher pH and temperature range
- ▶ **Papain** is a **powerful Digestive enzyme extracted from the papaya fruit**, also referred to as papaya proteinase.
- ▶ Plays a key role in Digestive processes involving breaking down tough proteins fiber. **Increases the nutrient absorption of protein-based food.**

Indigestion / Poor Digestion | Heart Burn

Anorexia | Flatulent & Fermentative Dyspepsia

Post-meal Abdominal distension

A Combination with **Bacterial Advantage...**

In Pain &
Inflammation...

IMUFLAM-D

Trypsin 48mg, Bromelain 90mg, Rutoside 100mg,
Diclofenac 50mg **Tablets**

- ▶ Useful in Protecting against systemic inflammatory Response.
- ▶ Helps to reduce symptoms of osteo and rheumatoid Arthritis.
- ▶ Effective to improve the quality of life after surgical removal of impacted lower third molars.
- ▶ Inhibits inflammation-related gene expression in Activated Human macrophages and the release of Nitric Oxide.
- ▶ Effective for moderate to severe Postoperative pain.

Expectorant**

IRIKOF-LS

Levosalbutamol Sulphate 1mg + Ambroxal HCL IP 30mg +
GuaiphenesinIP 50 mg/5ml **Syrup**

- ▶ The using levosalbutamol instead of salbutamol produces less direct effect of B.adrenergic receptor & fewer cardiac side effects.
- ▶ Promotes mucus clearance, facilitates expectoration and eases productive cough.
- ▶ Effective in reducing exacerbation of chronic Bronchitis and in the protection from inflammatory reactions.
- ▶ Relieves from Nasal Discomfort caused by cold, Allergies & Hay fever

Bronchial Asthma

Productive Cough

COPD(Chronic Obstructive Pulmonary Disease)

Co-prescription in RTI

Easy Breathing All Seasons...

Cures anaemia in demanding situations

IROFON XT

Ferrous Ascorbate 100 mg + Folic Acid 1.5mg+
Zinc 22.5mg **Tablet**

Ferrous Ascorbate

- Delivers maximum amount of ferrous iron to the Duodenal Border
 - Produces Minimum GI adverse effects & Henceforth a significant Hb rise
- This relative bioavailability of ferrous Ascorbate is Higher 56% as Compared to carbonyl iron varied from 20 to 25%¹

Folic Acid

- Prevents NTD (Neural Tube Defect) and Hyperhomocysteinemia
 - Reduce the risk of premature delivery by two to three times
- Folic acid Fortification has reduced neural tube Defect Prevalence by 50%to 70%²

Zinc

- Required for Normal growth and tissue repair

**Pregnancy and Lactation | Iron deficiency Anemia
Iron Deficiency | Pernicious Anaemia | Menorrhagia
Spina Bifida | Premenstrual Syndrome**

Also Available

IROFON XT

Ferrous Ascorbate with element Iron 30mg + Folic Acid 0.5mg +
Cyanocobalamin 2.5mcg / 5 ml **Suspension**

Duo power to beat severe infections

R_x  **Syntrax TZ**
For IM/IV Use
Ceftriaxone 1 gm/500 mg+ Tazobactam 125/62.5 mg

CEFTRIAXONE

- Broad spectrum of activity against Gram positive and Gram negative bacteria.
- Reduces the incidence of postoperative infections in patients undergoing surgical procedure
- Ceftriaxone was found to be effective in the prevention of surgical-site infections after neurosurgery¹

TAZOBACTAM

- Enhances the activity of ceftriaxone against most ceftriaxone resistant Gram negative bacilli.
- Co-administration of the β -lactamase inhibitor tazobactam significantly enhanced the activity of ceftriaxone in different bacterial species²
- The combination of ceftriaxone and tazobactam appears to be an excellent therapeutic alternative with 94.6% of ceftriaxone resistant strains being susceptible in vitro to this combination.³

**When there is a
need of true
companion**

SYNTRAX-S 1.5

Ceftriaxone 1gm+ Sulbactam 500mg Injection

Ceftriaxone

- › Broad spectrum of activity against Gram positive & Gram negative bacteria.
- › Ensures negative microbial mutagenicity and thus minimal resistance
- › Reduces the incidence of postoperative infections in patients undergoing surgical procedure

Sulbactam

- › Enhances the activity of ceftriaxone in different bacterial species
- › Prevents the degradation of ceftriaxone by beta-lactamase producing strains
- › Combination of ceftriaxone plus the β -lactamase inhibitor sulbactam shows greater response in the treatment of intraperitoneal abscess due to *Bacteroides fragilis*, in comparison with ceftriaxone or cefotaxime alone¹

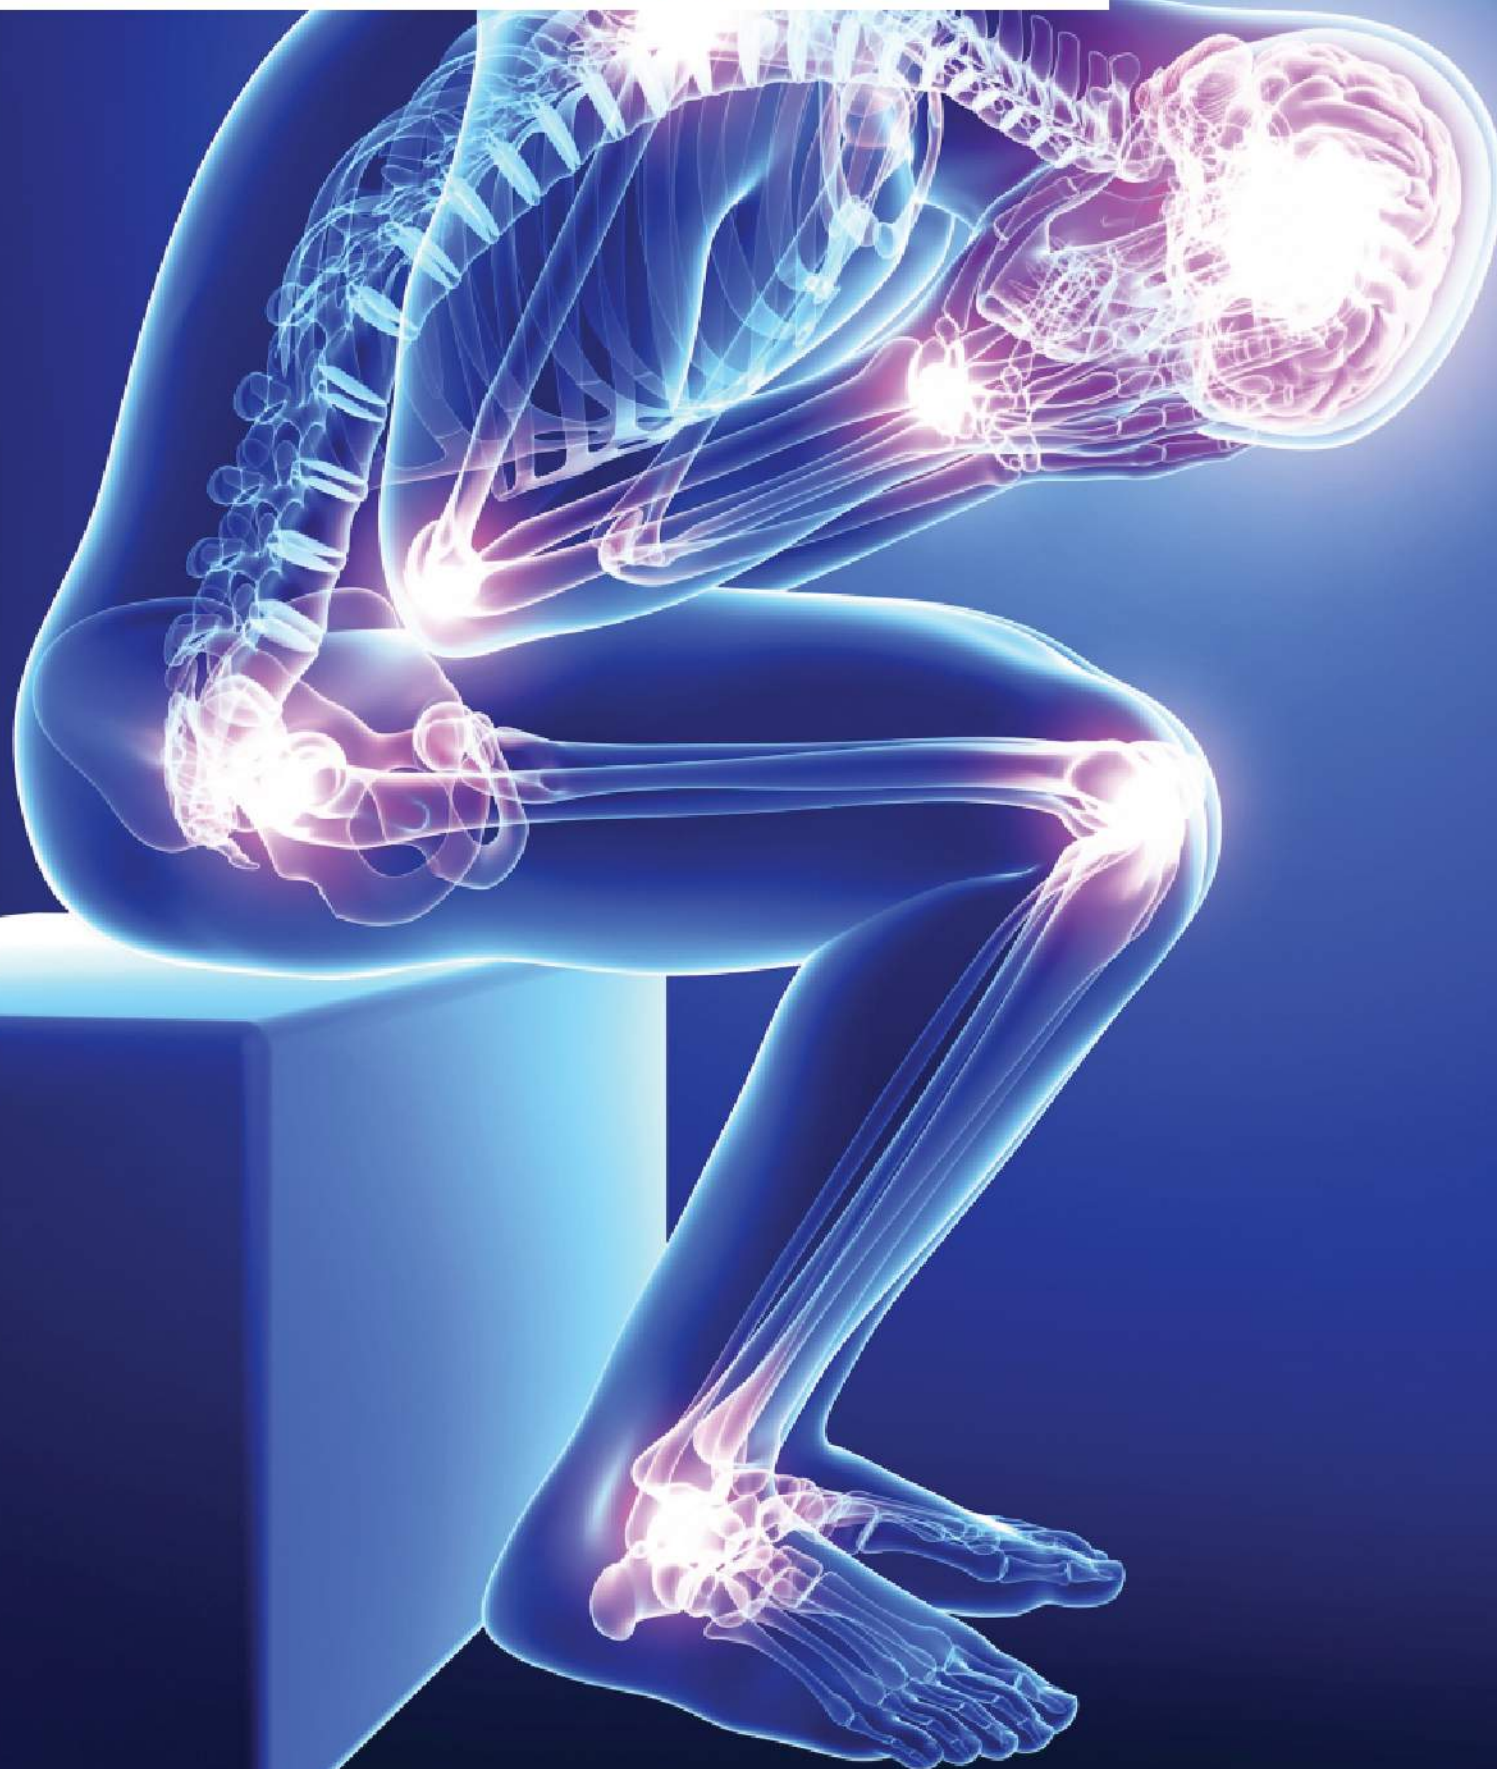

Acute Bacterial Otitis Media | Pelvic Inflammatory Disease

Urinary Tract Infections | Intra-abdominal Infections

Skin And Skin Structure Infections | Meningitis

Combination that provides infections free zone

When Severe Pain
Creates Trouble in life...

THIOFFA

Thiocholchicoside + Diclofenac + Linseed oil +
Methyl Salicilate + Menthol **Gel**

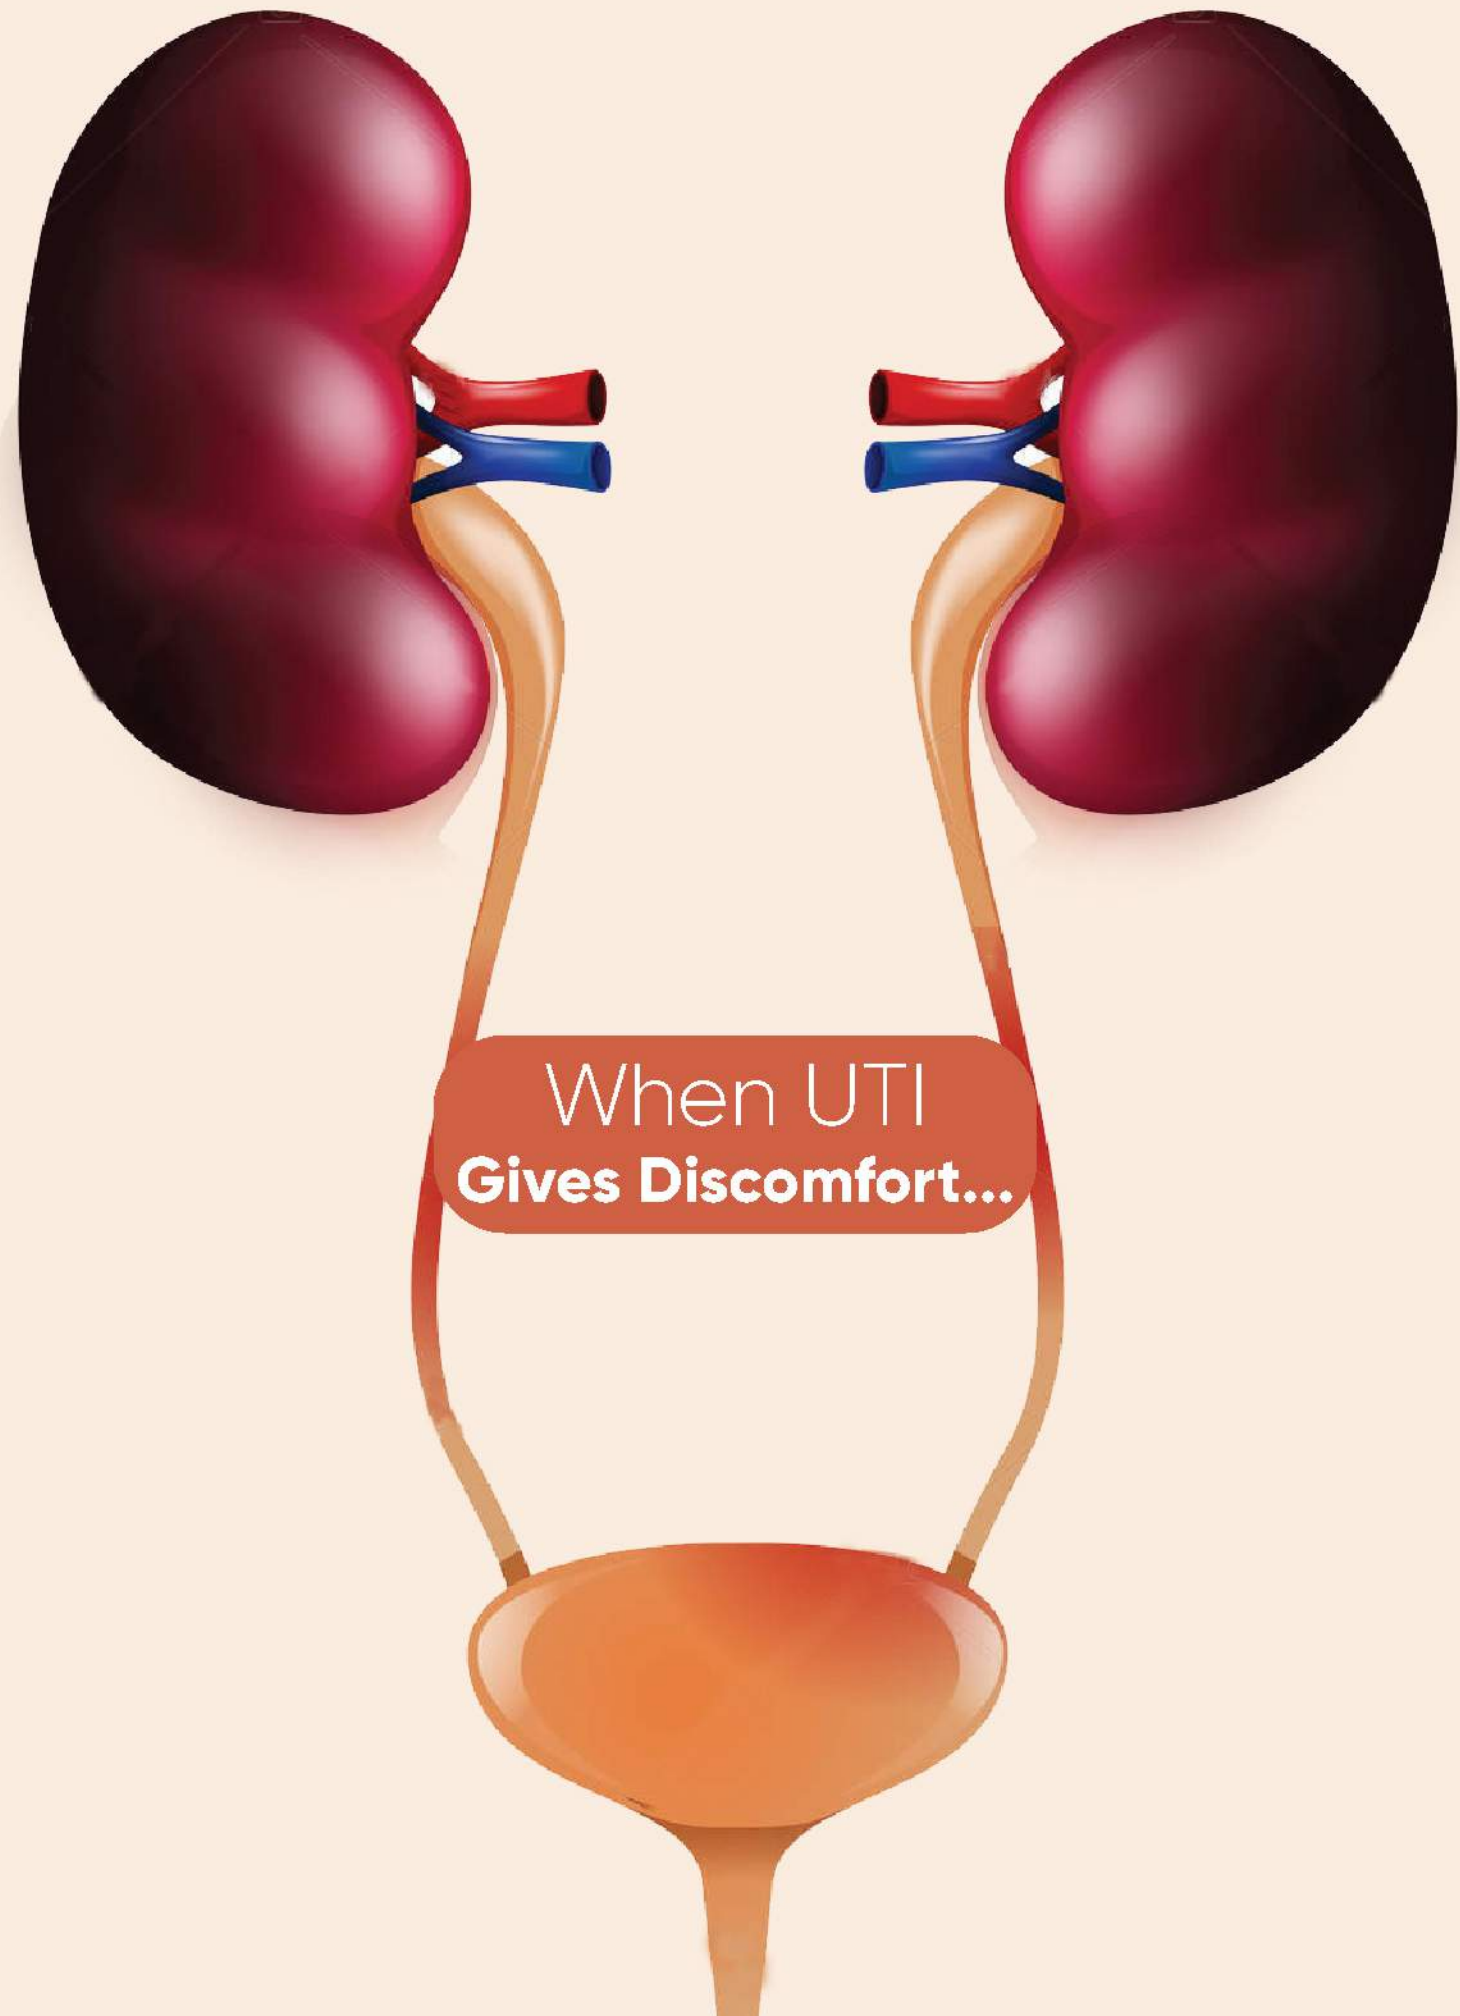

- ▶ Helps to reduce the infammation and pain
- ▶ Shows muscle relaxant action with anti-inflammatory & analgesic effects
- ▶ Potent analgesic & anti-inflammatory action that relieves muscle skeletal injury
- ▶ Shows potent anti-inflammatory effects
- ▶ The trusted & time tested counter irritant
- ▶ Rubificent action irritate the skin and readily absorbed through infact skin
- ▶ Dilates the blood vessels, Causing the sensation of coldness followed by an analgesic effect

Low Back Pain | Sprain and Strain

Sodt Tissue Rheumatism | Osteoarthritis

Sports Injury | Cervical Spondylitis

THIOcolchicoside for **F**ast
Forward to **A**ction

UROLIZ

Disodium Hydrogen Citrate (A Reverseafter of Choice)
1.25 gm/5 ml **Syrup**

A System Alkaliser of Choice

- ▶ Make urine less Acidic.
- ▶ Urine that is less Acidic Helps the Kidneys get Rid of Uric Acid.
- ▶ Helping to Prevent Gout and Certain types of kidney Stones (urate).

Painful & Burning Micturition

Urinary Tract Infections

Prostatitis and Cystitis

Renal Tubular Acidosis

Urinary Alkalizer...Faster

Leave nothing
to chance
in **treating Typhoid fever**

— Also Available —
Zetcef-XL
Cefixime 200mg + Lactic Acid Bacillus
250mn Spores **Tablet**
Zetcef-200
Cefixime 200mg **Dispersible Tablet**

ZETCEF-O+

Cefixime 200 mg + Ofloxacin 200mg **Tablet**

- ▶ High Efficacy & Low Incidence of side effects make it the Drug of Choice in RTI Infections
- ▶ Effective & well tolerated in the treatment of Bacterial sinusitis in Adults
- ▶ Effective in the treatment of Pharyngeal Gonorrhoea
- ▶ Broad spectrum Antibiotic
- ▶ Active against Gram Positive, Gram Negative and Anaerobes
- ▶ Possesses good Penetration in Most Tissues

Respiratory Infections
